

L: 8000/10000 mm
W: 3800 mm
D: 1500 mm

symmetric stairs
with bench

erato

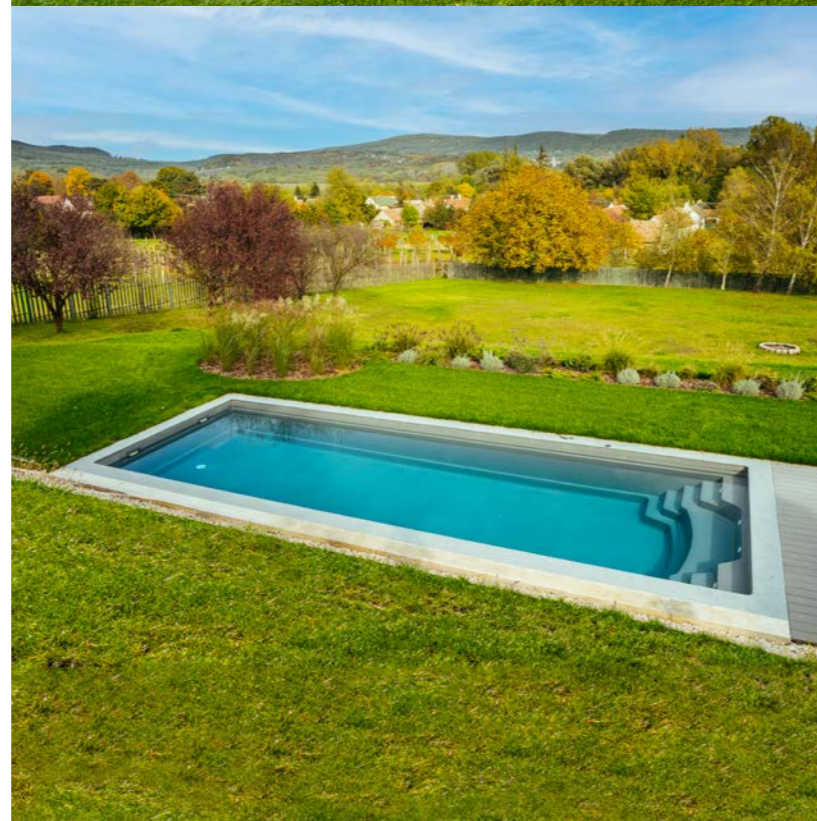

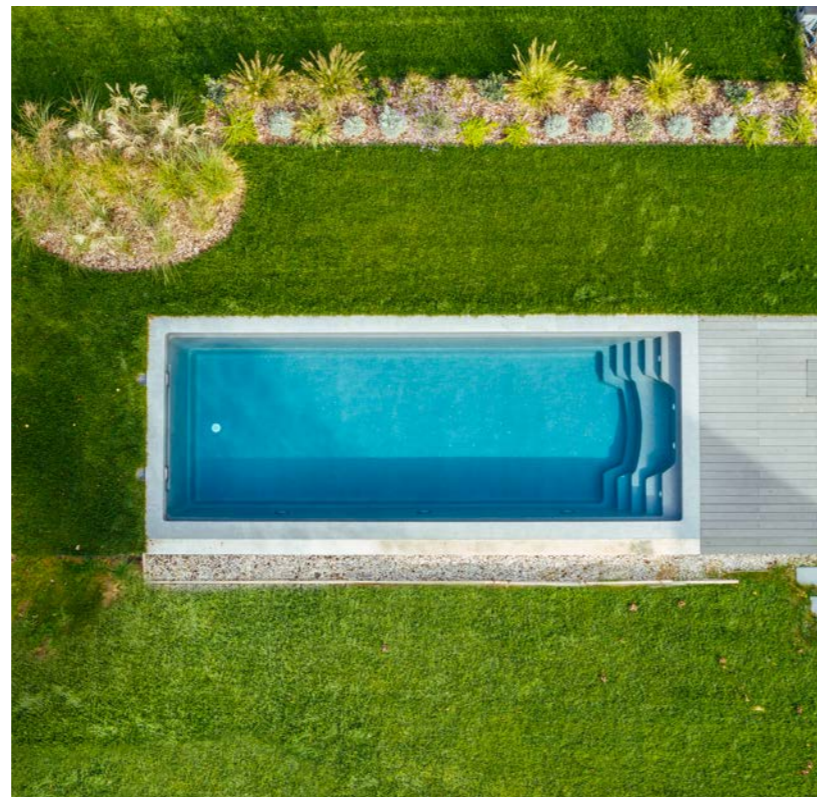

800/1000

This model is available in both 8 and 10 m length with a very similar stair layout which minerva comes with. The major difference beyond the size is the bigger radius applied across the design of the stairs. As all other models, erato also benefits from the elevated water level.

Inspired by natural stones.

There is an ever-increasing demand for stone-like finishes and therefore our company is also making efforts in creating more and more natural finishes for our swimming pools. We apply different colours, chips and glitters which are sprayed together with a transparent gelcoat. We have an in-house laboratory equipped with high-performance microscopes to analyse the structure of the gelcoat layer and make further improvements in spraying technics.

erato 1000
colour 3D obsidian grey
sizes L: 10000 mm, W: 3800 mm, D: 1500 mm
features symmetric stairs with bench

erato 1000
colour diamond white
sizes L: 10000 mm, W: 3800 mm, D: 1500 mm
