

A photograph of a woman wearing a straw hat, sitting in a wooden lounge chair by a swimming pool. She is reading an open book. The background shows a building with a balcony and some greenery, all in a warm, golden-hour light.

Summer and winter,  
cover your pool in  
total safety

## Mambo is simple to use

Simply pull on a strap to roll the cover out.  
No complicated mechanisms, no risk of breakdowns.  
It can be rolled up effortlessly using the hand or motorised crank (available as an option).

**A motorised crank:** Fast and easy to use, a cover over a 10 m pool can be rolled up in 45 seconds..

**Hand crank:** 1 hand crank are required for covers wider than 4.90m) No complicated mechanisms, no risk of breakdowns.

## Mambo is practical

A single cover to install for years of care-free enjoyment. You escape the nuisance of seasonal cover changes and the drudgery: cleaning, folding and storing the cover removed unfolding and installation of the other cover.

**Chose comfort, choose Mambo.**

## Mambo is easy to clean

With its two lacquered surfaces, Mambo stays clean; it is easily washed down with a blast of water.

## Mambo is harmonious

To enhance the cover's visual appeal, the bars are lacquered the same colour as the cover fabric (except for the grey bars which are anodised), a BWT exclusive.

## Mambo covers are available in 4 colours:

blue/beige, green/beige, beige/beige and grey/beige.  
The underside of the cover is always beige to prevent staining that could occur where the fabric is in contact with the coping.

Green

Grey

Beige

## Winter kit for pools up to 12x5 m

(designed to withstand the weight of snow)

- Inflatable floats made of 0.50 mm thick PVC with a valve for inflation and eyelets for attachment.
- 2 floats for pools less than or equal to 4 m wide.
- 3 floats for pools more than 4 m wide.
- Straps and attachment fittings.
- 1 foot pump.

# Protection & Harmonious

## Mambo is strong

Mambo comprises a UV treated, strong (650g/m<sup>2</sup>) hard wearing polyester fabric membrane. The cover fabric continues underneath the bars for enhanced mechanical strength. This strong membrane is lacquered on both surfaces to withstand wear and tear, physical and chemical attacks, and the weather. Extruded aluminium bars strengthen and stiffen the cover so that it would not be damaged by a child falling onto it.

Mambo covers feature eyelets the same colour as the cover fabric along both lengths to allow the attachment of straps (as an option) in regions subject to strong winds.

## LEGAL INFORMATION

Mambo complies with the French standard NF P 90-308 (May 2004 version concerning pool protection) in as far as all the components of the cover are provided by PROCOPI. A safety cover for pools intended to deny children under five access to the pool. This cover is no substitute for common sense or individual responsibility. Nor is it intended to replace the vigilance of parents and/or responsible adults which remains key to ensuring the protection of young children.

Tensioning and fastening assembly at the end of the cover

The aluminium bars of Mambo covers are lacquered to match the colour of the cover.

Anchoring system designed for use in regions subject to strong winds (option).
